BIBIN TOM JOSEPH

Senior iOS Developer • Toronto ON CA (Open to relocate)

bibintomj@gmail.com • (519) 590-9788 • linkedin.com/in/bibintomj • github.com/bibintomj • bibintomj.com

Objective

Growth-focused Senior iOS Developer with 7+ years of experience building secure, scalable, and high-performance iOS applications. Specialized in **Swift, SwiftUI, and Combine**, with proven expertise in **MVVM, POP, and Reactive programming**. Adept at designing custom UI with AutoLayout, developing multithreaded applications, and integrating third-party SDKs. Strong track record in **unit testing, performance optimization, and RESTful API integration**. Experienced in collaborating across global delivery environments to deliver robust, user-centric mobile products.

Highlights Of Qualifications

- **iOS Development:** 7+ years with Swift, SwiftUI, UIKit, Combine, Objective-C
- **Android Development:** Java, Kotlin, Flutter
- **Full Stack:** HTML, CSS, JavaScript, React, Next.js, Tailwind CSS, Express, Supabase, MongoDB
- **AI/ML Tools:** LangChain, RAG implementation with Supabase PGVector, intelligent system integrations
- **Architecture & Patterns:** MVVM, POP, MVC, Reactive programming, Declarative UI, Core Data
- **UI & Multithreading:** Custom view creation, AutoLayout for adaptive design, multithreaded application development
- **Testing & Quality:** XCTest, Unit Testing, Integration Testing, Code Reviews, Security & Performance improvements
- **Integration & APIs:** REST APIs, JSON, GraphQL, third-party SDKs & libraries, secure mobile payments
- **Version Control & CI/CD:** GitHub, Agile collaboration, CI/CD awareness
- **Collaboration:** Strong cross-functional experience with Designers, PMs, QA, and Backend teams in enterprise delivery environments.

Professional Experience

iOS Developer Intern, Innovate Landfill Solutions, Toronto CA   Mar 2025 - May 2025

- Prototyped a **real-time translation app** leveraging iOS Speech and Translate frameworks, focusing on accessibility and user-centric design.
- Applied **SwiftUI and Combine** to build responsive, reactive components for dynamic text rendering.
- Implemented **on-device processing** to improve performance, reduce costs, and enhance data privacy.
- Participated in **unit testing, debugging, and performance tuning** to ensure robust, multithreaded execution.

Application Development Senior Analyst, Accenture, Bengaluru IN   Apr 2022 - Apr 2024

- Led end-to-end iOS development for Esso Mobil and ExxonMobil payment apps, delivering secure and scalable enterprise mobile solutions with 99.9% uptime.
- Built core features and custom UI components using Swift, SwiftUI, Combine, UIKit, MVVM, and POP, ensuring multithreaded performance, accessibility compliance, and modular, testable code.
- Integrated third-party SDKs and RESTful APIs for payment processing and identity verification while conducting unit and integration testing to strengthen app robustness, security, and usability.
- Collaborated with global cross-functional teams and provided mentorship through code reviews and best practices.

Mobile Application Developer - iOS, HiFX IT & Media Services, Kerala IN   Feb 2019 - Mar 2022

- Developed and deployed multiple iOS applications, integrating RESTful APIs, secure data protocols, and modular architectures for maintainability.
- Implemented UI/UX enhancements, accessibility features, and code optimization for performance and user satisfaction.
- Regularly contributed to code reviews, testing strategies, and Agile ceremonies.

Associate Software Engineer, Digital Mesh Softech India P Ltd, Kerala IN   Nov 2016 - Dec 2018

- Built full-stack and front-end iOS applications, focusing on payment integrations, accessibility, and responsive UI with UIKit.
- Established and enforced coding standards, supporting inclusive and collaborative team environments.

Awards

Awarded twice Accenture PINNACLE Award - North Star   FY2022, FY2023

Awarded for driving an extra ordinary culture and leading my team to greater success with trust, collaboration and compassion.

Certifications

AI and Career Empowerment   June 2025

University of Maryland - View Credential

Introduction of Artificial Intelligence   Aug 2025

IBM SkillsBuild - View Credential

Notable Projects

Esso Mobil iOS App - Mobile Application for Gas Payments   View in Appstore

- Owned the implementation of Citi card enrollment, applying secure encryption and provider documentation standards.
- Developed multi-method tech wallets, integrating payment systems using Swift, RxSwift, MVVM, and ensuring accessibility for all users.
- Enhanced security protocols with rigorous testing, achieving 100% compliance with privacy standards.

Manorama Online – Major south Indian news application   View in Appstore

- Led Swift and UIKit migration for high-traffic news app, enhancing performance, accessibility, and product scalability.
- Developed Election Module with real-time updates, supporting 500K+ daily users.

Volunteering Experience

Full Stack Developer (Volunteer), HackTheBrain Hackathon 2025, Toronto, CA   Mar 2025 – Jun 2025

- Built web portal for participant registrations using Next.js, ShadCN UI, Tailwind CSS, and Supabase PostgreSQL
- Implemented FullCalendar JS library for dynamic event scheduling and timeline management
- Integrated Supabase storage for resume upload functionality and participant data management

Education

Diploma in Web Development, Conestoga College   May 2024 – Aug 2025

Bachelors in Computer Science and Engineering, Karunya University   June 2012 – May 2016
